The former officer is employed at General Steel Industries and is continuing his education at the Southern Illinois University - Southern campus. His parents, Mr. and Mrs. James L. Costello, reside at 1600 Clark avenue.

In awarding the decorations and combat veteran his second Bronze Medal, the U. S. Military Assistance Command, Vietnam, citation reads in part: "For heroism in connection with military operations against a hostile force; First Lt. Costello distinguished himself by heroic action on March 19, 1968, while serving as Alpha Team Leader, 1st Battalion, 50th Regiment, 25th Infantry Division, Army of the Republic of Vietnam."

"On that date, Lt. Costello's mission was to assist the Vietnamese in the area of the lead company which

was to destroy the enemy's position. Lt. Costello's actions were of such a nature that he was awarded the Bronze Medal with 'V' Device and the Staff Service Honor Medal.

Lt. Costello, whose enlistment will expire next June 10, is scheduled to leave Vietnam on Feb. 26 to return home on leave.

The citation for the medal award was prepared by Lt. Gen. H. W. Buse Jr., commanding general of the Fleet Marine Force, 1st Marine Division, Marines, First Marine Division, in connection with combat operations against the enemy in the Republic of Vietnam."

"During the early morning hours of May 12, 1968, Lt. Costello was occupying defensive positions at the An Hoa combat base. Suddenly, the Marines came under heavy ground attack by an estimated platoon-sized North Vietnamese Marine sapper unit utilizing mortars, small arms, automatic weapons and rocket-propelled grenades.

"When the enemy forces occupied an abandoned bunker and surrounded Lt. Costello's position, he immediately commenced delivering accurate fire on the enemy. After a few minutes, the enemy fired a 160mm howitzer destroyed the enemy-occupied bunker.

GC Given Land for New 'N-S' Street

City Hopes to Have Most of Needed R.O-W Within a Short Time

The initial stretch of right-of-way for a proposed new north-south street that would parallel the railroad tracks was acquired Monday night by Granite City.

Council members approved an ordinance in which Henry Ross, contractor and developer, donated to the city a strip of road about 60 feet wide extending from Pontoon road on the east side of the tracks, south for a distance of over 1000 feet.

Alderman R. E. Robertson, who has been working toward the development of a major north-south thoroughfare to ease traffic congestion, commended Ross for his civic-mindedness.

"I understand," Robertson said, "this stretch of ground given to the city is worth \$50,000. I want it to be known that Mr. Ross has given this property to the city. It proves that not all civic-minded persons are dead."

Plans for Street Robertson said he is planning to have at least half of the needed right-of-way in the near future. Plans are for the street to extend either from 22nd street or 25th street to Pontoon road.

In the right-of-way dedication is an allowance for a 10-foot easement for the St. Louis & Interurban Water Co. to install lines and pipes, which also may go under the proposed roadway. The lines are to connect with the firm's new 2,000-gallon water storage tank.

November Draft Call Cancelled; Men Enlist

The draft call for the Quad-Cities tomorrow has been cancelled, it was learned yesterday at the county selective service office in Edwardsville, since the two young men scheduled for induction either enlisted in regular forces or are preparing to enlist tomorrow.

The pre-induction physical examination for 14 local youths will be carried out tomorrow, and the December quotas also still stand. Next month, seven Quad-City areas will be drafted on Dec. 3 and 34 others are to undergo pre-draft physical exams on Dec. 16.

By his courage, aggressive fighting spirit and steadfast devotion to duty in the face of great personal danger, Lt. Costello inspired all who observed him and upheld the finest traditions of the Marine Corps and the U.S. Naval Service."

Venice Police Arrest Two In Narcotics Case

Two men were arrested by Venice police Monday night and charged with possession of narcotics paraphernalia after they allegedly had "cooked" a quantity of marijuana in the home in the 1100 block of Market street.

Police said they booked Charles Wright Jr., 21, of Calhoun street, Venice, and Larry Thomas Knowlen, 21, Brooklyn. Knowlen also was charged with having an auto without state license plates.

Known was arrested about 8:30 p.m. shortly after he left the Market street address and got into his auto which had been parked across the street.

Officers who had been watching the residence on 11th street, stopped Knowlen a few blocks from the house and said they found a paper bag in the car containing empty paragonic bottles, hypodermic syringes and needles.

Returned to Venice According to the officers, Knowlen told them that he and Wright had gone to St. Louis earlier in the evening and each bought a bottle of paragonic, returning to the Venice house which was occupied by a woman acquaintance of Wright. Police quoted Knowlen as saying that he and Wright had "cooked" down the paragonic and that each "had a fix."

Venice police reported they then returned to the home on 11th street and were admitted by the woman. They said they found Wright in the house, searched him and found "narcotics paraphernalia" on him. Officers said the woman gave them permission to search the house.

When they did so, police said, they found a wallet under a bed. It contained a hypodermic syringe and needles were found under the mattress.

The woman also was booked on a charge of possessing the narcotics equipment found in the home, but police said she was released and no charges were filed after they were convinced she had not participated in the treatment of the paragonic and that the hypodermic syringe and needles belonged to Wright.

Is Narcotics Lecturer Officers said that Wright told them he is a "Narcotics lecturer."

Pontoon Road Opening Delayed by Weather

At least another week will be required to complete paving work and shoulder construction at the intersection of West Pontoon road and Route 3, it was reported today.

Highway department engineers had hoped to reopen West Pontoon road at the Route 3 intersection this week, but were unable to do so because of severe weather and rain. Weather which setback the timetable for the construction work.

Three to four days of work with dry weather will be necessary to complete the job, engineers said. Pontoon road was closed at Route 3 on Oct. 2, Northbound traffic on Route 3 since has been detoured over FA Route 151 (The Great River Road).

Japanese "Y" Exec Here On 'Learning' Mission

"Governments may be apart, but citizens — inside — are the same wherever you go and in this way we understand each other," commented a Japanese YMCA official, who visited the local YMCA Tuesday.

Tsutomu Matsumoto, a former college teacher now executive secretary of the YMCA Training Institute in Tokyo, Japan, expressed his appreciation for "the warm heart shown by Americans in welcoming foreign visitors."

Currently in the United States for six months, during which time he will study instructional techniques used in training

courses for professional YMCA workers at different staff levels, Matsumoto will spend five weeks in the two-state metropolitan area.

It was explained by local YMCA Executive Director Marvin Van Metre, with whom the Japanese YMCA's education department, that the St. Louis YMCA has an advanced staff training program and is noted for the number of specialized personnel connected with its training operation.

Emphasizing the similarity between people around the world, Matsumoto commented, "The color of each may be different, but the mind is the same."

He arrived in Honolulu from Japan on Oct. 15, departing soon afterwards for San Francisco and Los Angeles. He already has visited YMCA training centers and facilities in Denver and New York City and has spent one week in Washington, D.C. He came to this area on Nov. 3.

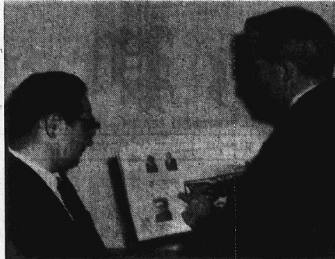

Granite City PRESS-RECORD

Noting that the YMCAs of Japan have not the advantages of United Fund allocations, as most locally-oriented Y's in the U. S., the visitor said about 90% of the financial support is derived from fees paid through the Japanese YMCA's education department. The remaining funds are contributed by individual supporters.

In addition to recreation, physical education and related programs, an important aspect of the Japanese YMCA is its academic courses for college-age students and adults.

Conversational English, considered important to business life in Japan, probably is the program most in demand today, he explained.

Unlike its counterpart in this country, the YMCAs in Japan do not teach judo. Special instruction outside the "Y" program is available to those wishing to learn the judo art, Matsumoto said.

DETAILS OF THE YMCAs current membership drive, publicized in the Press-Record, being discussed by Tsutomu Matsumoto (left), executive secretary of the YMCA Training Institute, Tokyo, Japan, and Marvin Van Metre, local YMCA executive director.

Most students attending the field training. They take part in the street right-of-way Monday night, council members approved an ordinance granting a special use permit to the water company for the 1.6-acre tract on which the water storage tank is to be erected.

MORE ABOUT Bronze Star

would secure the landing zone during a helicopter operation. While approaching the landing zone, intense hostile fire from both the west and north side of the zone. The enemy was immediately taken under fire by six gunships.

"Upon landing, the element which Lt. Costello was with began to secure the landing zone for the next lift. The gunships attached to the flight began to approach the unit from the northeast.

Lt. Costello, with his radio operator, was still in the open near the edge of a wooded area when the lead gunship fired on the unit with its rockets. Having everyone take cover, Lt. Costello, placing himself in extreme danger and with complete disregard for his safety, remained standing, frantically waving his men at the gunships which were now in line and approaching the position."

"The first two ships fired eight rockets into the position, some of which landed within a few meters of Lt. Costello, who was the only individual standing totally in the line of fire."

"Immediately after this incident, he called for medical evacuation and helped extract a number of dead and wounded Vietnamese soldiers. Lt. Costello's heroic actions were in keeping with the highest traditions of the United States Army and reflect great credit upon himself and the military service."

Major Gen. Nguyen-Xuan-Thinh, commanding general, 25th Infantry Division and 31st Division Tactical Area, Republic of Vietnam Armed Forces, cited the local officer as follows:

"First Lt. Paul J. Costello is awarded the Staff Service Honor Medal in First Class. An excellent officer of high spirit."

"During his term of service in Vietnam as an advisor to 1st Battalion, 80th Regiment, and an operations officer at T.O.C. 25th ARVN Division, Lt. Costello has positively cooperated with ARVN personnel to accomplish all assigned tasks. He provided a lot of new ideas for combat fire coordination center which assisted the assigned units of Division to obtain satisfactory results in their combat operations."

Lt. Costello earned his first Bronze Star Medal in early 1968 for outstanding and meritorious service as an advisor on Advisory Team 99, near Duc Hoa, Vietnam. During the same awards ceremony, he received the Air Medal for combat aerial support of ground operations.

On July 25-26, 1968, in action with Vietnamese forces in the Ben Luc District on a helicopter reconnaissance - in force operation, the local officer won the Silver Star Medal for conspicuous gallantry in rescuing wounded South Vietnamese soldiers from the battlefield, a feat which later inspired the RVN, which he served as advisor, to assault and overrun enemy-held positions.

Prior to assignment in Vietnam in February 1968, Lt. Costello was attached to the 82nd Air Borne Division at Fort Bragg, N. C. Upon graduation from the Army's Special Warfare School, he successfully completed 12 weeks of language training in Vietnamese (Saigon branch), conducted at Biggs Field, Fort Bliss, Tex.

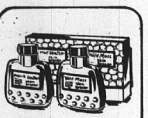

He was graduated in 1965 from Granite City high school and attended the University of Illinois before enlisting for airborne training in February 1966. He received his commission one year later at Fort Benning, Ga.

Stuffing the Turkey—How Much?

How much stuffing for the turkey? This question is being asked by young homemakers who are preparing a holiday dinner for the first time. Some want just enough to stuff the bird, while others want some extra.

For a turkey weighing from 6 to 12 pounds, ready-to-cook weight, you'll need from 2 to 3 quarts of the large (1/2-inch) bread crumbs. For larger turkeys, use the following guide: 12 to 16-pound turkey—3 to 4 quarts; 16 to 20-pound turkey—4 to 5 quarts; 20 to 24-pound turkey—5 to 6 quarts. A pound loaf of bread makes about two quarts of large crumbs.

If you are using a dry packaged stuffing, read the package label for the amount needed. If you like dressing made from fine crumbs, you will need less than the amount listed for the large crumbs. Prepare the dry ingredients the day before, if you wish and store them in the refrigerator. Do not add the liquid until you are ready to stuff the bird, and do not stuff the bird until just before roasting time.

Stuff the bird loosely, as the bread will expand as it absorbs the juice from the bird. Overstuffing tends to make the stuffing soggy.

Tips on Selecting Toys

Select toys that fit a child's age, environment and needs. If you like dressing made from fine crumbs, you will need less than the amount listed for the large crumbs. Prepare the dry ingredients the day before, if you wish and store them in the refrigerator. Do not add the liquid until you are ready to stuff the bird, and do not stuff the bird until just before roasting time.

Toys should serve one or more of these purposes. Further the child's muscular development.

Further the development of motor skills. Strengthen relationships with other children.

Stimulate the child to be creative. Provide practice in reasoning and imagination.

Explore the arts and sciences. Lead to understanding the world around him.

Develop future hobbies and careers. Let the child have fun.

In addition, play materials must be safe. Toys for very young children should have few or no small parts.

Toys should be sturdy and durable. If a toy breaks easily, the child may become frustrated and discouraged. Durable toys are also practical because they can serve several different roles as the child's interests change.

The best toys have multiple uses that lead the child to new and worthwhile discoveries.

House Windows Broken

A door window and a small pane in a picture window were broken at the home of Linda Sparks, 2400 Washington avenue, at 11:30 p.m. Tuesday, she reported at 12:10 p.m. Wednesday. She was aroused from her sleep by the noise and called out apparently frightening the intruder away.

Provisions of New Police, Firemen Benefit Outlined

Provisions for administration of the recently-enacted "Law Enforcement Officers and Firemen Compensation Act" have been outlined by Illinois Attorney General William J. Scott in letters sent to all public protection departments and agencies.

The act, which is to be administered by the attorney general's office, provides for payment of \$10,000 to the beneficiaries of law enforcement officers and firemen who are killed in the line of duty.

Scott explained the act covers law enforcement officers and firemen employed by any city, county, village or other municipality, and by the state of Illinois, all of its agencies and departments, including colleges and universities.

He pointed out that deaths occurring within one year after injury are also covered. If the injury resulted from violence or accidental means, he emphasized that the \$10,000 benefit will be paid in addition to any pensions or other compensation due as a result of the death.

Scott pointed out that in addition to providing financial assistance to survivors, the purpose of the act is to also acknowledge the efforts of those engaged in protecting lives and property.

He said all inquiries and requests for application forms should be directed to him at 160 North LaSalle street, Chicago, Ill., 60601.

Stop Sign Charge Filed

Kelley W. Walls, 2825 Saratoga avenue, was charged with a stop sign violation at 2:35 p.m. Wednesday at St. Clair and Wayne avenues.

Venice Man, 27, Held In Edwardsville Holdup

Edward Lee Smart, 27, of 103 Douglas street, Venice, and Michael Jones, 20, of St. Louis, were being held in the Madison county jail this week on a charge of armed robbery at the Tri-City Grocery in Edwardsville.

They were arrested by Edwardsville police at 10:30 p.m. Friday, three hours after the robbery which netted bandits about \$200. Bonds of \$10,000 were set for the two, and police are seeking a third suspect who was spotted fleeing the store parking lot with the other two.

The three had abandoned an auto on the lot. It later was determined that the car had been stolen from Beatrice Hill, 305 South Fourth street, Venice, in St. Louis earlier in the day.

Beer and liquor were found in the car. Smart had been charged with theft two nights before, shortly after \$700 was stolen from the cash register at Mitchell's Standard service station, Route 111 and East Chain of Rocks road. He had given authorities an Edwardsville address at that time.

Judges for the second annual "Dress-A-Doll" contest at the Granite City Trust and Savings bank, were announced today by E. A. Karandjiff, president of the bank.

Those who will judge contest entries are Mrs. Laura Thebeau, 1511 Fifth street, Madison, last year's grand prize winner; Miss Dorothy Davis, lighting consultant of the Illinois Power Co., and Miss Beverly Frazier, president of the senior high school Red Peppers.

Judging of the dolls will be conducted at 10 a.m. Saturday, Nov. 29 and winners will be announced Dec. 1, Karandjiff said.

TOP CITY EXECUTIVE. Mayor Donald Partney (second from right) was among Granite City officials honored by the local Jaycee chapter. Left to right are—John Krekovich, project chairman; State Senator Merrill Ottwein, guest speaker; Mayor Partney; and Stanley Noe, Jaycee, president.

Jaycees Honor Aldermen, Mayor, City Officers

Granite City public officials were honored Tuesday evening at the Rees Bowl restaurant as Granite City Jaycees hosted a "City Council Recognition Dinner."

The gathering was addressed by State Senator Merrill Ottwein, elected to office for the first time earlier this year, who described the problems and experiences of a "green" legislator.

In welcoming the "city fathers," Stanley Noe, chapter president, commented, "It is fitting and proper that we honor you for your many years of service and for making Granite City a good town in which to live."

Master of Ceremonies Richard Dawdy, chairman of the Jaycees board of directors, noted that over 200 years public service was represented by these officials present.

Tracing the history of the Jaycees organization, founded in St. Louis in 1915 mostly through the efforts of Clarence H. Howard, then president of Commonwealth Steel Co., Dawdy paralleled the Jaycees' growth with historical facts of the community.

Clarence Howard, Dawdy added, also proved a benefactor of Granite City by contributing a sizable donation to construct the YMCA and providing materials and money to build Lincoln Place community center.

Dawdy said the same year the center was completed—1921—R. E. Robertson, now Fourth Ward alderman, was mayor of Granite City.

Special honorees were accorded Mayor Donald Partney for his support of Jaycee activities. The mayor was made an honorary Jaycee member, the fourth such award in the chapter's history.

John Krekovich, dinner chairman, introduced the guests, including Aldermen Robertson, Charles W. Morflein, Walter Nunn, Paul Rutledge, Samuel Whitmer, William Dallas, Roy E. Bassarich, and Mayor Partney.

Other city officials honored were Supt. of Streets William A. Mayfield, City Treasurer, R. "Pat" Rich, City Comptroller Robert Stevens, Fire Chief Earl E. Koschberger, and City Atty. Leon Scroggins.

Certificates of appreciation were presented to each by Noe. A special guest was George Barnett of Cahokia, Jaycees state vice-president.

In closing of Tuesday's dinner were James Jeffries, Boyd Presley, Dr. Chris Geroff, Rich Moore, Pete Novachek, Dawdy, Krekovich and the chapter president.

OSCAR ALBERT
Oscar Albert, 65, Dies Unexpectedly On Visit Here

Oscar Albert, 65, of St. Petersburg, Fla., retired Madison service station owner, died unexpectedly of a heart attack Monday night while on a visit here. His wife, Helen, was summoned from Florida after he was taken to DePaul Hospital in St. Louis.

Mr. Albert, who was staying at the Travelodge, was at the service station, Oscar's 68 Service, 12th and State streets, when he became ill about 6:45 p.m. An ambulance driver happened to be at the station buying gasoline, and Mr. Albert asked to be taken to the St. Louis hospital. He passed away at 8:34 p.m.

Mr. Albert, who moved to Florida four years ago, had been ill with a heart ailment for several years. He returned here frequently for physical examinations and to visit the service station. He operated the station for 35 years.

He intended to remain here for two weeks and arranged Monday to speak at Wednesday's Madison Rotary club luncheon. He had planned to invite a number of automobile dealers to hear the talk. Still a member of the Madison club, he maintained perfect attendance by "making up" meetings at various Rotary clubs in Florida.

He and his wife had begun spending several months each year at St. Petersburg more than 15 years ago and he participated in a number of automobile citizen social and sports activities there.

A 35-year Madison resident, he was formerly a member of the Tri-Cities Chamber of Commerce, a 32nd Degree Mason, and a member of Masonic Lodge 877, the Scottish Rite and Ainal Temple, serving as president of the Tri-City Shrine club and being honored with election to the Shrine Jesters group.

In addition to his wife, he is survived by a son, Raymond Durbin of Florissant, Mo.; two brothers, James Albert of Oklahoma City, Okla., and George Albert of Cedar Rapids, Ia.; three sisters, Mrs. Mae Rudolph and Mrs. Julia Neese, both of Hillsboro, Ore., and Mrs. Mabel Sipman of Cedar Rapids, and two grandchildren.

Funeral arrangements are given in today's obituary column.

Mrs. Lucille Preston, 51, Dies Wednesday

Mrs. Lucille Preston, 51, of Holiday Mobile Court, Rural Route One, was pronounced dead upon arrival at 1:45 a.m. Wednesday at St. Elizabeth Hospital. Mrs. Preston, who had been under treatment for a heart ailment, was stricken at home and rushed to the hospital.

She was a native of St. John's, Ill., and lived here four months. She was a member of the Baptist Church in DuQuoin and also a member of the Eastern Star.

Survivors include her husband, Ira L. Preston, a son, Paul Preston of Caseyville, a daughter, Mrs. Paula Hammonds of Mulkey Town, Ill.; a sister, Mrs. Ruth Hickman of DuQuoin; a brother, Eugene Hartley of Bradley, Ill.; a sister, Mrs. Ruth Hickman of DuQuoin, and two grandchildren.

Services are to be conducted at DuQuoin. Further information is given in today's obituary column.

Venice Schools Boost Education Levy to \$730,377

A supplemental tax levy of \$142,512 for the education fund of the Venice school district has been filed by school officials in line with a referendum authorizing a 40-cent increase in the district's education fund tax rate per \$100 assessment.

The action, taken by the Venice board of education Monday night, raises to \$730,377 the total amount of the education fund levy, which was set at \$587,865 before the election.

Supt. John O. Pier said \$138,383 is expected to be collected under the new rate, which will be used to reduce the amount of tax anticipation warrants included in the 1969-70 budget from \$251,084 to \$115,711.

The education and fund budget remains the same, \$1,371,652.

In other business, board members approved participation by Donald W. Mancell, Venice director of instrumental music, in the midwest band clinic set for Dec. 16-20 at the Sherman Hotel, Chicago.

Attendance at Venice elementary and high schools during October, reported by Assistant Supt. Robert N. Vickers, was 93.93%, with 93.67% in kindergarten classes, 94.33% elementary and 93.15% high school.

Monthly bills approved for payment from the education fund totaled \$701. Building fund bills amounted to \$2012 and transportation bills \$428.

Venice-Lincoln Technical Center bills approved amounted to \$817. Expenditures at the adult education center are reimbursed by state funds.

Name Omitted

Former GC Residents Killed in Auto Crash

A former Granite City couple was killed in a head-on auto collision near their home at Lebanon, Mo., at 1:15 p.m. Tuesday.

They are Glen Arnold, 62, and Mrs. Malinda Arnold, 59, who resided in Granite City for about 40 years before moving to Lebanon three years ago after Mr. Arnold retired from the National Lead Co.

Mrs. Arnold was a native of Lebanon, and the couple held membership in the First Assembly of God Church there. While residing here, they were members of the Tri-City Park Assembly of God.

It was learned that the other auto, coming from the opposite direction, was passing on a hill when the collision occurred.

The Arnolds are survived by a son, Walter Arnold of St. Louis; a daughter, Mrs. Wilma Jean Roan of Dixon, Mo., and six grandchildren.

Mrs. Arnold is also survived by a brother, David Lester Squires of Granite City. Mr. Arnold was the brother of Ray Arnold of Edwardsville and Mrs. Hazel Berg and Mrs. Jessie Presley of Lebanon.

Funeral services were set for 2 p.m. today at the First Assembly of God Church in Lebanon, with burial there.

Mrs. Nora C. Pace, 89, Dies This Morning

Mrs. Nora C. Pace, 89, of Rural Route 2, Edwardsville, died at 11:45 a.m. today at St. Elizabeth Hospital, where she was a patient three days. She leaves a daughter here.

In ill health the past seven years, Mrs. Pace had been residing during this time with a son-in-law and daughter, Mr. and Mrs. M. G. (Barbara) Downing of Edwardsville, formerly of Granite City.

Mrs. Pace was born and reared in Fort Smith, Ark. She was a member of the Baptist faith. Her husband, Albert Pace, died in 1953.

Beside Mrs. Downing, also surviving are three sons, Onice Pace of Creve Coeur, Mo., Troy Pace of Tucson, Ariz., and Olin Yates of Godfrey; another daughter, Mrs. Bernard (Hilda) Acquiva of Granite City; 16 grandchildren and 43 great-grandchildren.

Funeral arrangements are pending at Mercer Mortuary.

Speed Ice Skating Races Here Saturday

The first annual Bi-State Invitational Speed Skating Championships will be held at the Wilson park ice rink Saturday. The Granite City park district and the Gateway Speed Skating club are jointly sponsoring the meet with the sanction of both the Illinois and Missouri skating associations.

Over 100 heat, semifinal and final events in 12 classes, plus a novice class for local residents only, will be held, beginning at 10 a.m.

The competition will pit national point scorers and state champions in classes from senior men through midget girls.

Standout Granite City skaters who will race are Mike Cother and Chris Brandt. Brandt, a fifth grader at Niedringhaus school, has been a consistent leading scorer in the midget boys' class of Gateway competition.

National point scorers from Missouri include: Dave Van Mill, senior men; Dennis Gier and Ed Jacquins, intermediate boys; Jim Chapin Jr., junior boys; and Linda Murphy and Karen Chapin, juvenile girls.

A keen rivalry will be renewed between Ed Jacquins of St. Louis and Rusty Smith of Champaign, Ill. Jacquins won the U. S. 5-mile race held in March in St. Louis; Smith was second.

GC Goal Getters Ready For New Soccer Season

Granite City high school's 1969-70 soccer season has arrived.

The Warrior team is two years old and improving with age. The infant team in 1967-68 delivered a 2-7-3 record. Last season, the Warriors earned a 5-6-6 mark.

The kicking Warriors and their coach, Tom Wyrostek, will begin their third season at 7 p.m. Friday at the GCHS stadium against a tough St. Mary's of St. Louis squad.

Returning Granite City starters are Jerry Monahan, Robert Cunningham, Dennis Reutebuch and Bobby Galvan.

Galvan returns with the most impressive statistics—16 goals in 15 games.

Other players likely to start this season are John Windfield, Rich Lasso, Eddie Hagmann, Rich Schardan, Howard Bolten, Sam Valencia and John Rodi.

The coaches or failure of the 18-game season may hinge on the quality of the goal tending.

Net-defender prospects are Harry Smith, Jeff Worthen, Larry Williams and Cecil Barnes.

Coach Wyrostek comments: "It will be a long season if no good goalie develops."

The varsity and junior varsity schedules follow. Games will be at 4 p.m. except as indicated.

Eugene E. Mueller, Gerald G. Todd, Michael W. Schanuel and David C. VanMetre, who were members of the "Dad" Stanley Garrity memorial class.

Stanley Garrity was grand master of the Order of DeMolay from last March until his death on Aug. 9 following an active Masonic career.

During the meeting the chapter presented a certificate of appreciation to Granite City Chapter 221, Royal Arch masons, sponsoring body of the youth group. It was accepted by John W. Burgess, excellent high priest.

DeMolay Mothers who served refreshments and planned entertainment for their annual Christmas party were special guests for the "Flower Talk" given by Steven Ebrecht to members of the class.

The Thanksgiving holiday dance on Nov. 28 at Belleville was discussed. The Noblemen, an 18-piece band, will play. The dance will be open to DeMolays, Jobs Daughters and Rainbow Girls and their dates from the district 4 area.

A chartered bus or buses will be used to transport local DeMolays and Jobs Daughters to the semi-formal affair. De-

NEW DEMOLAY MEMBERS initiated Tuesday night are, left to right, first row—Gary L. Love, Glenn L. Lackey, David C. VanMetre, William J. Harrison and Richard D. Chandler; and second row—Michael W. Schanuel, Eugene E. Mueller, Gary M. Marsala, Raymond O. Hoffman, Gerald G. Todd and Terry L. Barton.

Molays and Jobs Daughters at home for the holiday are especially invited. A current dues card is required for admission. The degree course included Dwayne Pritchett, master; Keith Mercer, marshal; Hiram Ables, erator; and Al Stevens, B. J. Mihi, Carl Harrison, Paul Miles, Robert Hollenbeck, David Ledbetter and John Young, preceptors.

Five of the new members have brothers who are DeMolays. They are Harrison, Lackey, Mueller, Todd and VanMetre. The local chapter exceeded its 50th anniversary quotas for the year with 58 new members, as the international council had asked for 50 during the year and 10 in November.

116 Delegates Chosen For JC Model Con-Con

On the heels of the election of delegates to the state's Constitutional Convention, the Illinois Jaycees are holding a model Con-Con. Attending from the Granite City chapter will be Robert Bischoff, Jaycee vice-president and a local school teacher.

Stated to meet at Springfield, Ill. in East this weekend, the 116 Jaycee delegates from chapters throughout the state will attempt to draft a document that is representative of the thinking of young men under 35.

The convention will break into ten committees following a reception honoring the newly elected delegates Friday night. Bischoff has been selected to serve on the Education committee.

The convention is a second step for the Illinois Jaycees in the support of constitutional revision. The state organization was active in working for the call of the convention last year prior to the November general election.

This weekend's convention will result in the codifying of the changes desired by Jaycees. It is hoped that Jaycees will make these wishes known to their own Con-Con delegates who will convene in Springfield on Dec. 8.

MORE ABOUT

Staff of Clinic

stake in the directorship of this organization.

"The fact that the criticism has come in an unsystematic and unconventional manner solely from non-professional and pedestrian persons who, although they have community interests in mind, are not capable of judging others along dimensions in which they do not have experience or competence.

"Since the primary issue has been Mr. Staten's administrative competence, we who function under his leadership would like to comment.

Excellent Report, Guidance
The rapport between our diverse professional staff has been rare and excellent. We believe that this has proved to be most beneficial to the clients we serve.

"The anchoring point for this rapport is our director.

"The clinic staff shares a tremendous respect for Mr. Staten as one who is very competent as a diagnostician and therapist.

"Further, we maintain a similar attitude toward his administrative competence.

"The professional team of the clinic takes considerable direction from our director but we consider ourselves independent. Therefore, the criticism and innuendos have a much wider target.

"We would be happy, in fact we request that any further action be directed to the total body.

"We should be happy to work out whatever system of checks of efficiency as are necessary and reasonable to satisfy those persons who have a stake in our level of competence as a team on behalf of the community.

"In order to emphasize the intensity with which we hold these thoughts and feelings, we do hereby declare that — unless this inappropriate criticism and action ceases and some other more responsible and professional system of evaluation is substituted — we will consider possible recourses, noting the appropriate professional and political boards of the necessity for our action."

MORE ABOUT Johnsen, Durr

the field with 3606 votes on the basis of unofficial returns.

While greater interest than shown in last September's primary was anticipated for Tuesday's general election of two delegates, rain throughout the day, accompanied by dropping temperatures, obviously kept many persons from going to the polls.

In the townships of the Quad-City area, which with six other Madison county townships make up the 53rd Senatorial district, voting was only slightly heavier than during the primary in Granite City. Venice and Chouteau townships, while in Nameoki township Tuesday's total vote actually was less than that cast in the primary.

Light GC Vote
In the 32 precincts of Granite City only 1346 persons voted,

MRS. JESSIE O'DAY

Mrs. Jessie O'Day, Retired Teacher In Venice, Dies

Mrs. Jessie Leibold O'Day, 68, retired Venice school teacher with 43 years service, died of a heart ailment at 5 a.m. Wednesday in the Colman Nursing Home, where she had been a patient one week. She had transferred to the nursing home from St. Elizabeth Hospital.

Mrs. O'Day, who resided at 2341 Pontoon road for the past six years after 62 years residence in Venice, was a native of Jefferson City, Mo.

She taught the third and fourth grades at Venice schools and retired six years ago. She was a member of the Venice United Methodist Church, the Venice Senior Citizens Club and the American Association of University Women.

Her husband, Conrad, died in December 1966, and survivors include three cousins, Mrs. John (Alice) Mitchell of Venice; Herbert Williams of Phoenix, Ariz., and Albert Williams of McMinnville, Ore.

Funeral arrangements are given in today's obituary column.

Army Security Agency Positions Now Open

Choice assignments with the U. S. Army Security Agency are now available for men who can qualify. It was announced by Sgt. Morris L. Cook of the Army recruiting office at 1206 West Washington avenue.

Eligible applicants may train in electronics, radio code, communications, cryptology, languages and other occupations. Full information may be obtained at the recruiting office.

according to unofficial election returns, thus casting only 138 more ballots than the 1208 total vote in the Con-Con primary. Tuesday's Granite City vote represented 6.8% of its total registration of 19,776, just slightly above the 6% vote in the primary.

The eleven precincts of Venice township polled 803 votes, or 13% of its voter registration of 6218, compared to 721 votes, or 12% of the registration, cast in the primary balloting in September.

Nameoki township, however, polled a total vote of only 308 ballots in its eleven precincts in Tuesday's election. This represented 5.4% of Nameoki's voter registration of 5655, was a drop below the 349 votes, or 6% of registration, cast in the primary election.

The Quad-City townships, in fact, mixed their voting to such an extent that when the final Chouteau township voters' returns were in, all of the can-

didates had at least a taste of victory.

Venice township, in seven of its eleven precincts, gave substantial pluralities to Durr and Ringiering with a strong indication that these two candidates had the backing of the Venice-Madison Democratic organization. Both Durr and Ringiering are Democrats.

Total returns for all eleven precincts in Venice township gave Durr 621 votes, Ringiering 476, Mrs. Young 186 and Johnson 182.

GC Reverse Trend
But in Granite City, returns from all 32 precincts gave a plurality — although small — to Johnson, with Durr in second place by only a small margin over Mrs. Young. Johnson polled 664 votes in Granite City township, Durr received 614, Mrs. Young 588 and Ringiering 448.

Chouteau township reversed the trend entirely, giving the highest total vote of all four townships to Mrs. Young, who polled 248, with Johnson second with 227 votes. Durr received 206 and Ringiering 202.

Voters of Nameoki township gave top position to Durr with 204 votes, while Johnson was second with 147, Mrs. Young polled 105 and Ringiering 103.

The unusually light balloting in Granite City township ranged from a low total vote of 29 ballots in precinct nine to a maximum of 81 votes in precinct 17. The tabulation of returns showed that less than 40 votes were cast in each of 19 Granite City precincts.

Heavier voting was reported in Venice township in several precincts, but did not hold true throughout the entire township. In Venice precinct 10, for ex-

ample, only 11 votes were cast. Venice Precinct One, however, cast a total of 139 with one-sided majorities for Durr and Johnson. Venice precinct two reported 110 votes cast, with the same results. A total of 117 votes was cast in Venice precinct nine and 103 were cast in precinct eight.

Chouteau township voters really mixed their two-delegate combinations. Voters of precinct one, where 121 votes were cast, favored Mrs. Young first and Johnson second, while precinct two gave pluralities to Durr first and Johnson second.

In precinct three, with 190 votes cast, the majority went to Ringiering first and Durr second, while 189 voters in precinct four favored Mrs. Young first and Johnson second.

As the elected delegates of the 53rd Senatorial district, Durr and Johnson will join 114

other Illinois delegates — two each from each of the state's senatorial districts — to convene the Illinois Constitutional Convention in Springfield on Dec. 8.

Durr lives at 1028 St. Louis street, Edwardsville, and has been a lawyer for seven years. He is city attorney of Troy and Livingston and park district attorney for the Tri-Township district. He is a former assistant state's attorney. He is 31.

Johnson, 42, is an auditor and accountant and conducts his business in Troy. He formerly was editor of the Troy Tribune for 15 years and has taught school in Nebraska, Ill., and Stratford-on-Avon, England. He holds a bachelor of arts degree and a master's degree.

Petitions for Vote to Reduce County Tax Rate

Petitions seeking a referendum to decrease the Madison county general fund tax rate 25% are being circulated throughout the county.

The move was initiated by Wood River Supervisor Rodger J. Eble sr., assisted by Assistant Supervisors James E. Greene of Wood River township and Joseph Watscher of Alton township.

"According to a little known and little used provision of the general revenue law of Illinois, an election can be held to decrease the county general fund tax rate," Eble said.

Assailing "the clumsy" and antiquated government of Madison county, shameful waste, mismanagement and inefficiency," Eble seeks to reduce the 10-cent general tax rate per \$100 assessment to 7½ cents. The vote would take place in November 1970.

\$240 Million Reduction
He estimated that an affirmative vote on the tax rate reduction would trim the levy from \$990 million to \$750 million. He views this as the only way to force achievement of greater efficiency and economy.

"In the past, many worthwhile suggestions have been made by auditors, the news-media and other responsible individuals but almost all suggestions for efficiency, investments, streamlining, combining of committees, eliminating useless meetings and equalizing assessments fall on deaf ears," Eble said.

He cited Wood River area tax rate changes varying from a 66% cut to a 33% increase in the last five years and compared it with a boost in the total county governmental tax rate from 17.5 cents to 40.2 cents.

He concluded, "Approval of the referendum in 1970 would be a definite indication that voters want waste and inefficiency stopped. Then, if by January 1971 county officials have not taken definite corrective steps my plan is to give voters an opportunity to decrease the county general rate another 25%."

\$439,372 Costs Paid So Far On University House

Cost of materials and labor used in construction of Southern Illinois University's University House on the Carbondale campus amounted to \$439,372 as of Oct. 31, just a short time before work was halted due to the controversy concerning the project, according to Anthony Blass, SIU physical plant director, Carbondale.

Work on the combined guest facility and president's home was halted by the University's board of trustees Nov. 12. Action also was suspended on construction items in procurement stage.

Purchasing Agent Donald Ward said materials requisitions have been frozen and suppliers with orders already in hand are being asked to delay shipments. If they can't, SIU will accept the shipments and store them, Ward said.

Outside contractors will be paid for work done up to the construction cutoff date, and asked to leave their orders, standing until such time that the project may be resumed.

To Protect Building

Blass said windup work to protect the project in its dormant stage includes installing outside windows and doors under contracts already in progress, closing all openings with plywood, covering exposed wall-pouring concrete over an exposed driveway area, adding security lights and fencing and storing job equipment.

Chancellor Robert MacVicar said the precautionary work—including installation of doors and windows—"is simply basic business. The facility represents a considerable investment, and it is only sound operational management to protect it as thoroughly as possible until the trustees reach certain decisions."

University House is being built as a permanent institutional building. Estimate on general construction, not including outside site work, utilities, landscaping and fees, is \$500,189. Overall cost, however, has been estimated at nearly \$1 million dollars.

Course for Faculty Of Technical Center

An accredited course for teachers in the adult education field will be offered by SIU-SW at the Venice-Lincoln Technical Center during SIU-SW's winter quarter, which starts Jan. 6.

Approval for Venice-Lincoln to be used for the credit course was authorized by the Venice board of education Monday evening.

Duane Rankin, center director, said today the course will be offered under the title of Elementary Secondary Education Act 367, Teaching Competencies and Their Application/Section E003. He noted that the section does not appear in the SIU-SW printed winter schedule, but it has been scheduled expressly for adult education teachers in East St. Louis and Venice.

Dr. David Buckholdt, an education psychologist who has been engaged for some time in training teachers in the use of behavior modification "strategies," will be the instructor. Since one of the areas of interest of the adult education teachers is behavior modification, the initial course will emphasize this topic.

The first meeting will take place in Peck 2415 on the SIU-SW campus from 5:30 to 8:20 p.m. Tuesday, Jan. 6, according to St. Joseph Gore, associate professor of education. Subsequent classes will be held at the Venice-Lincoln center.

About 30 teachers are expected to take part. Enrollment will be limited to adult education teaching personnel.

The program will be funded under the Education Professional Development Act. Sequential classes, up to a year in length, are in the planning stage and may be offered during the spring quarter.

L. David Fore Appointed to Post at Nestle

L. David Fore, a chemist at the Nestle Co. regional laboratory at Marysville, Ohio, has been appointed quality control supervisor at Nestle's Granite City plant, it was announced today by R. G. Schuessler, plant manager. He assumed his new position effective Nov. 15.

Fore replaces John L. Williams, who has been appointed quality control manager of Nestle's Burlington, Wis., plant, the company's second largest chocolate plant.

Fore, a native of Vienna, W. Va., received his B.S. degree from Harding College in Searcy, Ark. with a double major in chemistry and biology. Fore, with his wife and four children, will make his home in Granite City.

Williams has been with the Nestle Co. since 1963 and at the Granite City plant since February 1968. He is a member of the Institute of Food Technologists and the American Society of Quality Control. He also is assistant district commissioner of the Boy Scouts in Madison county.

County Still a Contender for Major Airport

Whether a major metropolitan airport can be established in the Madison-St. Clair counties area hinges primarily on financing of the multi-hundred-million-dollar project, and it may be the first of the year before definite plans can be announced.

This report was given to the Metro-East Chambers of Commerce Association Tuesday night at Rusty's restaurant, Edwardsville by John Robson, an attorney and the chief transportation advisor to Gov. Richard B. Ogilvie.

Revenue bonds would be paid by users through commitments by airlines to utilize the airport, Robson said. While bond participation by the Illinois Building Authority has not been ruled out, such a governmental role has not been customary for most of the existing hub airports, he related.

Several sites would be adequate and they remain under consideration, Robson said. Opposition by Troy area residents to location of the airport near there is being taken into account, affirmative stands by groups and communities favoring an airport also would be considered, he said.

Big Economic Boost Seen Although land used for airport would go off the tax rolls, economic activity associated with such an airport and related commercial and industrial development would provide a huge economic stimulus to this region, the group was told.

His impression is that the project is feasible, but it involves so many factors, people and agencies that no one can yet guarantee that the airport will become a reality, Robson said.

However air travel expansion and the development of jumbo jet service, supersonic passenger planes and short-takeoff-and-landing planes have made it apparent that a second major airport is needed in this metropolitan area, he commented. Cooperation by the city of St. Louis, owner of Lambert Airport, was praised by Robson. Factors currently being studied besides revenue are population growth trends, soil conditions, air traffic patterns and surface transportation facilities, the speaker said.

\$55,162 Bill List Ok'd by Council

Granite City council members approved a bill listing \$55,162 and half-month sick leave for employees totaling \$164 during Monday night session.

Major items on the bill list were \$3221 paid to the engineering firm of Research Planning & Design Associates for inspection and construction supervision of sewer repair projects; \$20,773 paid to St. Louis Union Trust for Nameoki area sanitary sewer bonds; \$4575 to Aetna Life Insurance for employee group insurance; and \$2485 to A. H. Seebold for installation of a 12-inch storm sewer at Lynch avenue and Sara street, where drainage is being diverted from Dobrey slough.

Later in the meeting, the council approved payment of \$3347 to Horace Calvo for fees and costs in obtaining easements for the storm water sewer project recently completed.

Claim Payments
On a recommendation by City Atty. Leon Scroggins, the council voted payment of \$44.50 to George Feeney, 1038 Benton street, for medical bills for injuries suffered in a fall Aug. 18 at a curb at 20th street and Cleveland blvd. His request for \$100 lost wages was not taken up by the council. Repairs to the curb were started this week.

Referred back to the city attorney was his recommendation to pay Mrs. Howard Abernathy, 2818 Victory drive, the sum of \$54 for damages to her eyeslasses suffered in a fall on 21st street between the hospital at Tri Cor building on Aug. 5. The claim is to be turned over to Illinois Power Co.

Placed on file were Scroggins' recommendations not to pay two claims. They were claims filed by Carl Spiroff, 3117 Davis avenue, for \$22.79 damages to a tire and wheel on his car occurring July 12 when he struck a sewer break hole on Johnson road, and J. E. Johnson, 2595 Iowa street, for a \$12.50 tow bill resulting when his auto went into a cave-in at the rear of Louis Morbert, Niedringhaus avenue and Maple street.

Water Rate Hike Hearing Delayed

Granite City council members were advised by the Illinois Commerce Commission Monday night of a postponement of the hearing on a 47% increase in water rates sought by East St. Louis & Interurban Water Co.

The hearing was to have been resumed on Monday at Springfield, but was postponed to Dec. 17-18, with additional sessions Jan. 7-8, all at Springfield.

The notification from the ICC said the postponement had been requested by the Large Water Users Association, which includes the large industries in this area and the areas of St. Clair county served by the water company.

Notification was received from the state Municipal Problems Commission of a meeting Jan. 22 in Belleville. Mayor Partney urged council members to attend.

Topics to be discussed are: boundary adjustments with annexations; simplified municipal election procedures; municipal budgets; municipal regulation of businesses and municipal recommendations for constitutional convention delegates.

City Board Appointments Announced by Partney

Two appointments were announced Monday night by Mayor Partney and were confirmed by Granite City council members.

Named to the Zoning Board of Appeals was Dale Arnett, operator of a local pattern shop, to fill the unexpired term of the late George Highfield; and Mrs. Dorothy Luaders of Benton street was appointed to the city Animal Shelter Board.

The mayor also announced the resignation of a part-time secretary, Mrs. Edna Miller, who has been working with the Air Pollution Control board and who has accepted a full-time job in the township tax assessor's office.

Partney said the secretarial duties for the clean air board will be handled by another secretary at the city hall.

Re-employment of George Gallas sr. as a school crossing guard was approved by council members by a vote of 9-0-6. The motion was made by Alderman Everett Morlen, who also recommended Gallas be paid for the time he has been off since the start of school.

Mayor Partney reminded aldermen the hiring will result in cancellation of the city's Workmen Compensation insurance policy because of a physi-

cal examination requirement. Morlen pointed out no other firms have such a requirement. The Finance committee was instructed to interview other firms to secure a new policy to cover city employees.

"You're making a big mistake," Partney told the council. Gallas is to return to duty next Monday.

His pay will be \$13,000 a year, with an expense allowance of \$100 a month for total income of \$14,200, or \$1183 a month. His salary has been \$8800 with a \$200-a-month expense allowance.

1970 Car Licenses at 2 Banks Here Dec. 1

A total of 87 banks throughout Illinois will sell 1970 passenger car license plates beginning Monday, Dec. 1, Secretary of State Paul Powell announced this week. They include the First Granite City National Bank and the Granite City Trust & Savings Bank.

This will be the fifth year various banks in the state have handled Illinois auto license plates.

Powell emphasized that only passenger car plates will be sold, and only for renewal registrations. Applications for truck plates, transfers, certificates of title or original registrations cannot be made at the banks.

Services offered by the banks will be the same as those provided at the over-the-counter outlets of the Secretary of State's office in Springfield and Chicago, Powell said.

Applicants will be given assistance in filling out applications, their applications will be validated and the plates issued.

Applicants must present their 1969 identification cards or, in cases where the cards have been lost, their certificates of title.

At their discretion, the banks may choose to charge an additional fee for the service to offset the cost of a \$6000 validating machine each had to purchase, Powell said.

Convenience for motorists Secretary Powell expressed gratification at the interest shown by banks in providing the service pointing out that in each case arrangements for the service were made at the bank's request.

"This program has the advantage of enabling motorists in the various parts of the state to secure their license plates either in or near their local communities," Powell said.

Each of the banks has sent members of its staff to Springfield for training in filling out applications, determination of the proper license fees, operation of validating machines and other phases of passenger car licensing.

Urges Extension Of Mississippi River Festival

Chancellor John S. Rendleman of Southern Illinois University-Southwestern campus, said Tuesday that he will recommend to the board of trustees a one-year extension of the Mississippi River Festival.

The 1969 festival lost \$100,000 with SIU paying \$100,000 of the deficit. The other \$50,000 was paid by the St. Louis Symphony Society.

During an open discussion with faculty and students on problems of the Southwestern campus, Chancellor Rendleman said he fears the recent controversy over construction of the University House at the Carbondale campus may be detrimental to the continuation of the festival.

The University's share of the 1969 deficit was paid from discretionary funds—the same type of funds used to finance construction of University House.

Artistic Success Dr. Rendleman described the festival as "an artistic and cultural success, but a financial failure. The festival is 'one of the finest things this university has done and I would regret very much losing it,' the chancellor said.

Concerning other matters, Rendleman predicted greater autonomy within the SIU system for the Southwestern campus as a result of the present furor over the University House, and speculated discretionary funds will be made a part of the budget.

The chancellor said he hoped to be able to hold similar open discussions with students and faculty in the future.

Collide in Madison Rear end damage to an auto driven by Mike A. Tritan, 1633 Mitchell avenue, resulted from a two-car collision at Sixth street and Madison avenue about 6:55 p.m. Monday. Madison police said the Tritan car was struck by an auto driven by Walter Huckle, 871 Greenwood avenue, Madison, when Tritan stopped for a red traffic signal. Both cars were headed north on Madison avenue.

Bottle Breaks Window Cora Keeton, 2714 West 20th street, reported at 7:58 p.m. Monday that someone threw a soda bottle through the basement window at the rear of her house.

Special use permits were approved for Mrs. Barbara Lopez to operate a beauty shop at 2401 Madison avenue and for Emmett Clemons to open an insurance office at 3818 Nameoki road.

Held in abeyance for study by aldermen was the approval by the Plan Commission for Bobby Coryell to convert a garage at 1410 Grand avenue for a screen and glass repair shop. He is seeking a C-1 commercial zone classification instead of the present R-4 residential.

Two recommendations by the Zoning Board of Appeals also were accepted by the council. A request was denied for George Doroghazi, 3148 Rodgers avenue, to erect a carport one foot from his property line instead of seven feet. A neighbor objected to the board that it was impossible for Doroghazi to build so close to the line and not step on his property.

Approved was a request by Edward Chastain to erect a carport at 2512 Center street three feet from the side property line instead of five feet.

Grader for Street Dept. --New or Gov't. Surplus

A bid call for a new grader for the street department was authorized Monday night by Granite City council members.

Who called for other efforts through government surplus or buying a new grader through the state's purchasing agent.

The bid call was reauthorized in the event surplus models are not suitable, or the state purchasing agent cannot offer a lower price.

Alderman Boyd, chairman of the street committee, said the present No. 1 grader is broken down, and he recalled the council took no follow-up action several weeks ago after approving a bid call.

"Before we draw up specifications, I want to know how the council feels," Boyd said.

Alderman Moerlein said the city would have a top priority in getting a super grader and that the equipment might be available at the Army Depot here.

Alderman Baker called for contact to be made with the state's purchasing agent. The state's getting the information assigned to Comptroller Stevens.

Basarich commented that the council seemed to believe used equipment was suitable for the street department. "We don't buy used cars for the police department or the fire department," he said.

Nonn stressed that with the equipment breakdown, the city could have problems in the event of a heavy snow storm.

Mayor Partney, who noted that to buy new equipment.

"The city has to be able to pay for it," added that in the event of an emergency, a grader could be rented to move snow.

Partney replied that the city has no such contract arrangement, and that in an emergency, privately-owned graders would be busy clearing parking lots and other areas, "and the city wouldn't have a chance."

Nonn cautioned the council that the street department's supply of cinders for spreading at intersections in winter weather will be exhausted this year.

"No more cinders are available anywhere, and that means in the future we will have to use salt. That means a new type of equipment," he added.

A complaint on the rough condition of Fehling road was made by Alderman Robertson, who said residents claim that buses are damaging homes.

He suggested that buses either be slowed to 10 mph or temporarily rerouted. City Atty. Scroggins was asked to determine if the city can reimburse buses.

When the city engineer reported no problem with Fehling road, and Mayor Partney stated he had called upon the sewer repair contractor to make repairs several times, Robertson asked them to meet him at 6 a.m. Tuesday to inspect the roadway.

Street Supt. Warfield said weather conditions would not permit major repairs to the street at this time.

The city was advised by the Terminal Railroad Association that in response to a letter of complaint from Mayor Partney on Oct. 15, all TRRA crossings in the city were inspected and found to be in satisfactory condition. The railroad officials said that if conditions are otherwise, the city should pinpoint the locations.

Plan Ready for Four-Year Police Science College

Illinois Attorney General William J. Scott has announced completion of the first phase of his proposal to bring to Illinois a four-year College of Police Science designed to train police to cope with today's complex law enforcement problems.

A master plan for the police college was filed with Illinois Law Enforcement Commission, Scott said.

He said the operational proposal is the result of research and planning by a 60-man volunteer task force from the various state universities and law enforcement agencies under the direction of Scott's administrative assistant, Edward M. Vass, a former Chicago police officer with a master's degree in education.

ment officials at Chicago that because of the rapid advance in technology, chemistry, biochemistry, psychology, sociology and electronic sciences, a broad educational background is becoming essential to the law enforcement officer.

He also told the conference luncheon that the proposal now should be turned over to the State Board of Higher Education for implementation. The new College of Police Science, Law Enforcement and Corrections should be located on one of the state college campuses in order to take advantage of their existing facilities, Scott said.

The attorney general said his plan calls for the proposed college to have a department of science and technology, a Department of Corrections, and a department of law enforcement.

This is the year of the boot—the Florsheim boot. A rich, very soft cut of calfskin riding high up above the ankle with plenty of eye interest on the vamp. Once a boot was a mere fancy, now it's a staple in the wardrobe of millions of men who know what's happening. Florsheim makes a lot of boots—different heights, different styling, different leathers and colors. There's at least one Florsheim boot that'll do a lot for you—and for quite a while.

Prof Predicts 1970 Recession

The year 1970 will be known as the year of Nixon's first recession, Louis S. Drake, professor of economics of Southern Illinois University-Southwestern told the St. Louis Chapter, American Statistical Association, at a luncheon meeting today in St. Louis.

Drake's prediction was made during one of three 15-minute talks. Other speakers were Leonard C. Andersen, vice-president of the Federal Reserve Bank of St. Louis, and Clifford E. Hoffman, economist, Southwestern Bell Telephone Co.

Right-of-Way Charge

Raymond Krieff, Alton, was charged with failure to yield the right-of-way at 4:25 p.m. Monday at 20th and State streets.

The SIU-SW professor, who tied his prediction to his theory that the growth of money supply determines the upswings and downswings of our economy said that the nation's growth rate in 1970 will drop from the current seven per cent to four and most of the lower figure will be "really a continuation of our present inflation."

Drake predicted, too, that there will be little or no increase in the nation's real income picture during 1970.

City Attorney is Given Variety of Tasks

City Atty. Leon Scroggins was assigned a wide variety of tasks Monday night — ranging from determining the legality of desliding a street to property owners in a subdivision for a gate to halt speeders to calling upon Bi-State Transit to study the need for a bus route between Granite City and the SU-SW campus.

In between, he is to work with the city inspection department on enforcement of a city law requiring lids for garbage cans, prepare a resolution to vacate an abandoned storm sewer so a homebuyer can secure a loan, devise a resolution to approve a new subdivision control ordinance prepared by Southwestern Illinois Metropolitan Area Plan Commission and amend the sewer tap-on control law to increase the fine for failure to comply with inspection requirements from \$5 to \$100 to \$200 to \$500.

Dr. Hector Zavallos, 44 Terrace lane, in Oaklawn subdivi-

sion, complained of dangers from speeders going 40 to 60 mph on the curved streets. Property in the area has been damaged by autos. Alderman Dawes, who also resides in the subdivision, and Alderman Boker asked that the property owners be permitted to erect a gate at the Pontoon road entrance to "deadend" the street.

Other aldermen objected that there were speeding problems on streets throughout the city, and Mayor Partney suggested the city could deed the street to a property owners association. The legality is to be determined by Scroggins.

Alderman Poulos, whose daughter attends SU-SW, asked the attorney to confer with Bi-State Transit officials to determine feasibility of a bus route between the city and campus, and he also called for legal action against persons failing to have lids on garbage containers. The inspection department is to locate the violators. Alderman Partney asked for

preparation of the resolution to adopt a comprehensive subdivision control ordinance and master growth plan for the city. "This has been hanging fire for months, and we've got to get going on it," he told council members. The proposed new law is to be reviewed page by page before final adoption.

The council adopted a resolution calling for the county board of supervisors to pay the city's share of cost for membership in the East-West Gateway Coordinating Council. Mayor Partney said this policy was being carried out by other counties. The cost recently was increased from five cents per capita to eight cents.

Alderman Dawes complained that the fine for failure to comply with sewer tap-on inspection regulations was too low. He said the city should make it so costly that no one will cover up the line before it is inspected.

"That television inspection showing tap-ons jutting into the sewers convinced me," he added.

The abandoned storm sewer to be vacated is located in the 1400 block of Iowa street where the easement originally was granted in 1909.

Alderman Poulos asked that the state fire marshal be called upon to aid the city in razing fire-damaged property in the city.

Bread Sale is Planned To Aid March of Dimes

The 1970 March of Dimes Madison, fund-raising drive in Madison, set for early next year, is expected to be given an advanced boost in contributions through a special pre-campaign project to take place Saturday. It was announced today by drive co-chairmen, Mrs. Julia Voloski and Mrs. Jean Voegeli.

The campaign leaders said that patrons of various business establishments in Madison will be asked Saturday to donate a loaf of bread in exchange for a specially-wrapped loaf of bread. The bread, baked by Wonder Bread Co., and packaged in the wrappers inscribed with the National March of Dimes seal will be offered shoppers at Madison department, furniture and grocery stores and to patrons at the First National Bank in Madison.

Madison Junior Service members again will spearhead the traditional "Mother's March," set for January, and also sponsor the bread distribution project Saturday. Mrs. Voegeli announced.

Although this type of March of Dimes program is new to the Quad-Cities, similar projects have been successfully conducted in other Madison county communities in previous years, Mrs. Voegeli said.

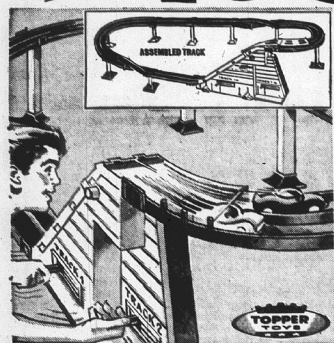

She noted that Madison drive leaders have ordered 250 loaves for Saturday's sale, compared to 600 loaves requested by the Altoon campaign chairman, who plan to sell the loaves on a door-to-door basis, a project they incorporated into the over-cery all fund-raising program last year.

Future Transplant-Memories To Aid Human Learning Process?

(American Chemical Society)

One of these days it will be possible to transplant artificial memories in human brains. This provocative idea was brought out at a seminar of bi-chemists and psychologists, held at the University of Tennessee College of Basic Medical Sciences at Memphis, the American Chemical Society magazine "Chemical and Engineering News," explains.

Referring to experiments with rats in the 1960s, Dr. James V. McConnell of the University of Michigan told the seminar:

"One thing was clear to me. Memories were stored not only in the animals' bodies, but just in the region of the brain. We did a study in which we showed that memories could migrate, and the only thing I could think of that could migrate was chemicals."

"One of the reasons it is difficult for people to accept the notion that the engraving of memory may be chemical is that, when we learn something, we can't feel chemical molecules doing little things inside us."

"We can't feel electrical activities in the central nervous system either, but we have analogies; for example, the busy telephone and telegraph systems that the society together."

Dr. McConnell reported details of recent research work with Dr. Arnold Golub, the University of Michigan that led to the following conclusions:

The materials of memory are probably chemical molecules made up of relatively small molecules. Retention of learning is an engraving process that goes on after an experience, and establishing a memory may require an "incubation period" after a learning experience.

The real payoff of memory transfer studies will come when the chemicals responsible for memory are understood well enough so that scientists can synthesize them in the laboratory, he said.

They could then implant artificial memories into people to speed up learning processes. These memories could aid slow learners and the mentally retarded and might be especially useful in under-developed countries."

Dr. George Ungar, of the Baylor University Medical School, who has isolated materials that produce specific behavior in animals, believes that the active materials of memory may correspond to chemical molecules by which information processing occurs in the brain, much as genetic code controls heredity.

He has found four different memory transfer factors corresponding to four different behaviors in the central nervous system. These factors indicate that these materials are "probably peptides containing eight to 12 amino acid residues that the society together."

Dr. McConnell reported details of recent research work with Dr. Arnold Golub, the University of Michigan that led to the following conclusions:

The materials of memory are probably chemical molecules made up of relatively small

'Kick Smoking Habit' Study being Conducted

Two Southern Illinois University psychologists are conducting a project aimed at helping people kick the cigarette smoking habit.

Vincent Harren, associate professor of psychology, and Alan Birnbaum, teaching assistant in the psychology department at Carbondale, are trying to find out what techniques work best with what types of persons. The two are working with "heavy cigarette smokers" those who have smoked at least a pack per day for more than a year — and who have a sincere desire to quit.

Harren and Birnbaum recruited volunteers through an advertisement in the SIU student newspaper. The first 100 applicants were signed up for the project, but Birnbaum says

there is a waiting list for further studies.

The volunteers' personalities are measured by various scales and they are given a program to follow for the purpose of kicking the habit. The volunteers keep records of their own progress. Their success or lack of it will indicate what types of programs are most helpful to what types of people.

According to Birnbaum, the ultimate goal of the project is to find out how best to help people give up cigarettes. First results of the project are expected before Christmas.

Charter Flight to Denver

18 St. Elizabeth CYO Members at Convention

It has taken two years of bake sales, car washes, candy selling projects and parish chicken dinners, but 18 members and advisers of St. Elizabeth CYO realized their goal and today are in Denver, Colo., taking part in the National Catholic Youth Organization convention.

Having attained the necessary funds through "lots of hard work," the local youngsters and their advisers departed yesterday by chartered plane for the national convention in Denver, where John Krieschok, St. Elizabeth CYO president, will participate in a debate on the value of the Selective Service System.

Voting delegates from St. Elizabeth include Krieschok, Dennis Kelahan, vice-president, Prima Noeth, convention co-chairman, Jane Lambert, John Klesch, Dorothy Fryntko and Peggy Jaro.

Alternates attending the convention are Dennis Riggs, Brian Greathouse, Angela Judy, Andrea Mehelic, Toni Selmer, Kathy Lancaster and Ellen Gause.

Adults accompanying the group are Rev. Virgil Mank, CYO director of St. Elizabeth, and lay advisers James Reinhardt, Miss Ginger Krieschok and Miss Kathleen Judy.

Magr. Thomas J. Leonard, director of the division of youth activities, U. S. Catholic Conference, Washington, D. C., said about 6000 delegates are expected to be on hand for the start of the 10th biennial session today.

"Two-in-One" Meet

The "two-in-one" convention, which will feature television personality Art Linkletter as the principal speaker at the concluding banquet, is geared this year toward two sections of the national CYO federation, both of which are holding separate meetings simultaneously in Denver.

The young adult section, meeting at the Cosmopolitan hotel, has as its theme—"Who Will Answer—You?" Theme of the teenage section, convened in Denver's new Convention Center complex, is "Youth-impact on Two Communities."

Departing from the usual panel format, the 1969 convention sessions are featuring the multi-media approach, focusing on youth-centered subjects—drugs, Vietnam, the military draft, bettering CYO and expansion of programs for Catholic youth.

Offerings for Poor At the special Masses celebrated during each day of the convention, youth groups will bring offerings for the poor and underprivileged.

Liturgical rites for the convention will be directed by Rev. Joseph M. Champion, associate director of the Secretariat of the Bishops Committee on the Liturgy.

Bishop William G. Connor of Greensburg, Pa., Episcopal moderator of the division of youth activities, will be principal concelebrant at the closing Mass of the convention Sunday. Fund-raising projects to finance the chartered jet flight and for expenses incurred on the four-day trip were carried out by the delegates themselves over a two-year period.

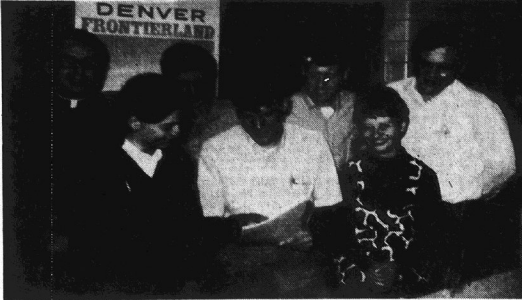

Planning for the 1969 convention started immediately after the local CYO members returned from the 1967 biennial meeting in Florida. Co-chairmen of the trip planning committee were Jane Lambert and Toni Selmer.

Delegates left St. Louis airport at 6:40 p.m. yesterday and are expected to arrive back at the same terminal about 9:30 p.m. Sunday, Rev. Mank said.

One of the most active CYO groups in this area, the St. Elizabeth youth organization has approximately 125 members.

Mrs. Sowell is Named to Board For Gifted Pupils

Mrs. Sally Sowell, director of the gifted program for the Granite City school district, has been elected to a three-year term on the board of directors of the National Association for Gifted Students at the 18th annual conference held this month in New Orleans.

The national group is in the process of reorganizing its structure and activities with Mrs. Sowell as chairman of the constitution and by-laws committee.

Richard Brinkhoff, service and demonstration director of the continuous progress program at Parkway school, also attended the meeting and will serve as a member of the same committee.

Mrs. Sowell has been employed in the local school district since 1940 and taught accelerated classes in the junior high school level 10 years before accepting her present position, which she has held for six years.

She had a bachelor of arts degree in English and social studies, a master of science degree in special education for the gifted and a specialist's degree in administration and supervision.

She is a former NEXTEP fellow from Southern Illinois University and has held active membership in the Association for Supervision and Curriculum Development, Association of Student Training, National Education Association, Illinois Educational Association, Council for Exceptional Children and Kappa Delta Phi, a national honors organization in education.

She also is a member of the Director of Student Teaching Committee of the Higher Education Coordinating Council of Metropolitan St. Louis.

The publishing company of Paul S. Amidon and Associates, Minneapolis, currently is preparing for publication Mrs. Sowell's instructional materials for teachers, "Developing Creative Behavior," and for students, "Learning Social Studies Through Crossword Puzzles, South America."

Seaman Rost Aboard Apollo Recovery Ship

Seaman Norman J. Rost Jr., U.S.N., of Norris, Reynolds, 4265 Marigold drive, is serving aboard the USS Hornet, the primary recovery ship for the Apollo 12 moon mission.

The 44,000-ton aircraft carrier is positioned near the splashdown point 385 miles east of American Samoa. The Hornet was the primary recovery vessel for Apollo 8, 10 and 11.

Aboard the Hornet is Headquarters Anti-Submarine Squadron Four which will carry the astronauts to the recovery ship. Swimmers of Underwater Demolition Team 13 are also aboard the ship. The three-man team and special decontamination swimmer will be the first of the recovery forces to reach Apollo 12.

Swimmers will attach a flotation collar to the capsule and assist the astronauts aboard the rescue helicopter.

In Memoriam

In memory of **MR. ELMER L. LLOYD** who passed away 4 years ago Nov. 22, 1965. If we could make steps out of heartaches, And use all our tenderness too; We'd build a stairway to heaven, And climb it each day to see you.

His smiling face and pleasant face, Are a pleasure to recall; He had a kind word for each, And died beloved by all. Someday we hope to meet him, Someday we know not when, To clasp his hand in the better Land, Never to part again. **WIFE AND CHILDREN** 33-14-30
